# HHLA PURE

CO<sub>2</sub>-neutral Container handling & transport

With the HHLA Pure product METRANS offers our clients a CO<sub>2</sub>-free handling and also transport, and thus, together we make a real contribution towards climate protection.

- HHLA and METRANS course of action
- Modern hybrid and electric locomotives
  - Electrification at the port container terminal with electric storage crane system, electric vehicles.

## HOW DOES THE CO<sub>2</sub> COMPENSATION WORK?

### COMPENSATION IS STILL WORTHWILE, EVEN WHEN LARGE DISTANCE ARE INVOLVED

Burning fossil fuels releases CO<sub>2</sub> emissions into the atmosphere.

As the atmosphere has no borders, it makes no difference where in the world the CO<sub>2</sub> emissions are produced; the impact is the same the world over.

THE SOLUTIONS – with the course of action we solve CO<sub>2</sub> emissions – for remaining emission we buy Certificates for environmental projects.
